BA, History, University of North Florida, Jacksonville, FL

Current Research

“Plain Ordinary Working People”, a project featuring found Wal-Mart employee portraits from the 1970s. Using historical and social research methods a visual narrative is constructed from the found images. New pictures are made as a response to the found images, and certain individuals have been found and re-photographed, thirty years after the found images were taken.

Do Not Grow Weary is a photographic series that investigates the daily lives of three evangelical pastors through the lens of labor. This series also uses social research and statistics to show the struggle between pastoral responsibilities and their personal lives.
